

General company information

Customized solutions
for the laboratory and pharma technology
from one source

Neuberger Gebäudeautomation GmbH

The Company

- Neuberger is a leading supplier of
 - **Automation for laboratory and pharma technology**
 - **Monitoring systems according to GMP-regulations**
 - **Clean room panels and signalling panels**
 - **Building automation and building management systems (BMS)**
- Headquarters location:
91541 Rothenburg ob der Tauber, Germany
- Neuberger is certified according to
DIN EN ISO 9001 (Quality Management System) and
DIN EN ISO 14001 (Environment Management System)

Neuberger Gebäudeautomation GmbH

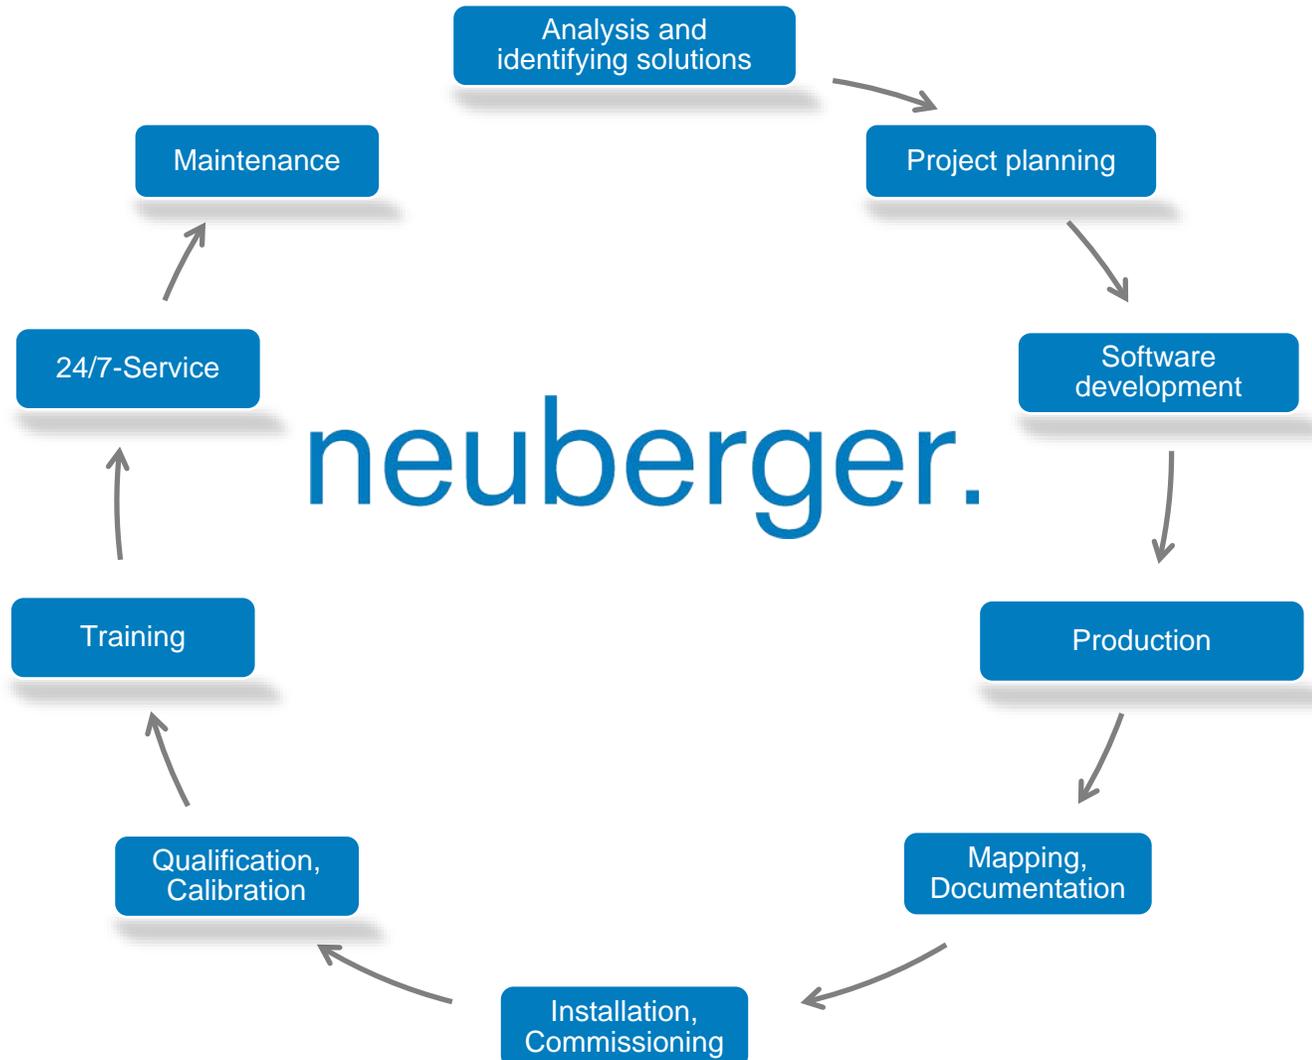

Facts and figures at a glance

- 570 employees
- 150 own service staff employees
- 9 regional centres covering all of Germany
- 1 subsidiary in Switzerland
- More than 14,000 successfully completed projects
- Annual revenue of 75 million euros
- More than 50 years of experience in the market

Neuberger Gebäudeautomation GmbH

One-stop solution

ONE-STOP SOLUTIONS IN

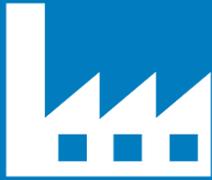

- Automation for laboratory and pharma technology
- Monitoring systems according to GMP-regulations
- Clean room panels and signalling panels
- Building automation and building management systems (BMS)

Neuberger Gebäudeautomation GmbH

Building sections

Industrial buildings

Laboratory and research buildings

Pharmaceutical industry

Energy supply systems

Office and administration buildings

Hospitals and clinical facilities

Residential buildings

Schools and universities

Products

Innovative solutions and reliable services
for the laboratory and pharma technology

Products

Solutions for laboratory and pharma technology

Automation Station PMC2

Facts and figures

- Hot Plug Automation Station for operation in the laboratory and pharma technology
- Own development and production
- Continuous improvements and further developments
- No product-life-cycle-management
- No letters of discontinuation

Unlimited spare parts supply for the whole lifetime!

Products

Solutions for laboratory and pharma technology

Clean room terminals

for acquiring, measuring and visualising room conditions

- Measuring device for pressure, temperature and humidity
- Integration of access control systems, light and lock control
- Visualization freely programmable
- Closed front protects against particle deposits (glass and stainless steel)
- Freely assignable operating keys
- Multi-touch display, fingerprint sensor

Products

Solutions for laboratory and pharma technology

Clean room terminals

Access control with hand vein recognition

- Biometric method using absorption of infrared rays in venous blood
- Recognition of the vein pattern and comparison with the template
- Fast, hygienic, touchless, intuitive
- **High security** of 0,000.08% FAR*
*FAR = False-Acceptance-Rate
- Ideal for applications in **high security areas** such as research laboratories, data centers or boardrooms

Products

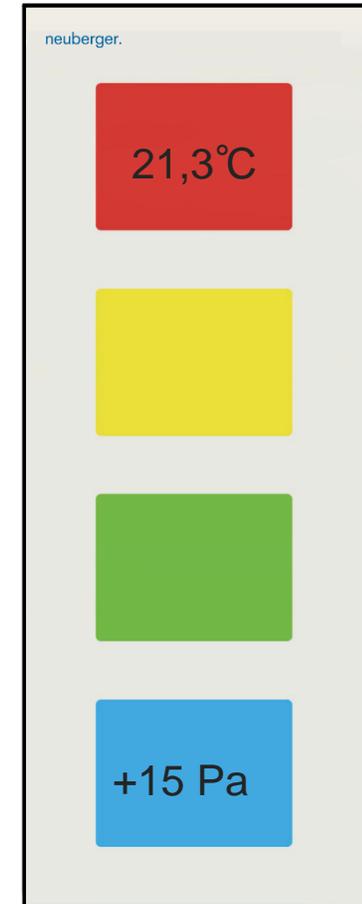

Solutions for laboratory and pharma technology

Signalling panels

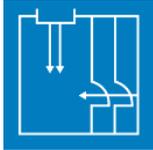

for clear clean room status signalling

- Status signaling by means of color change
- Display of freely programmable plain text messages
- Optional: Warning tones by means of acoustic signal horn
- Easy assembly and absolutely hygienic

Products

Solutions for laboratory and pharma technology

Airlock control

Control of personnel and employee locks to protect employees, environment and products

- Door control
- Door surveillance
- Monitoring of pressure
- Alarming
- Display
- Access control

Products

Solutions for laboratory and pharma technology

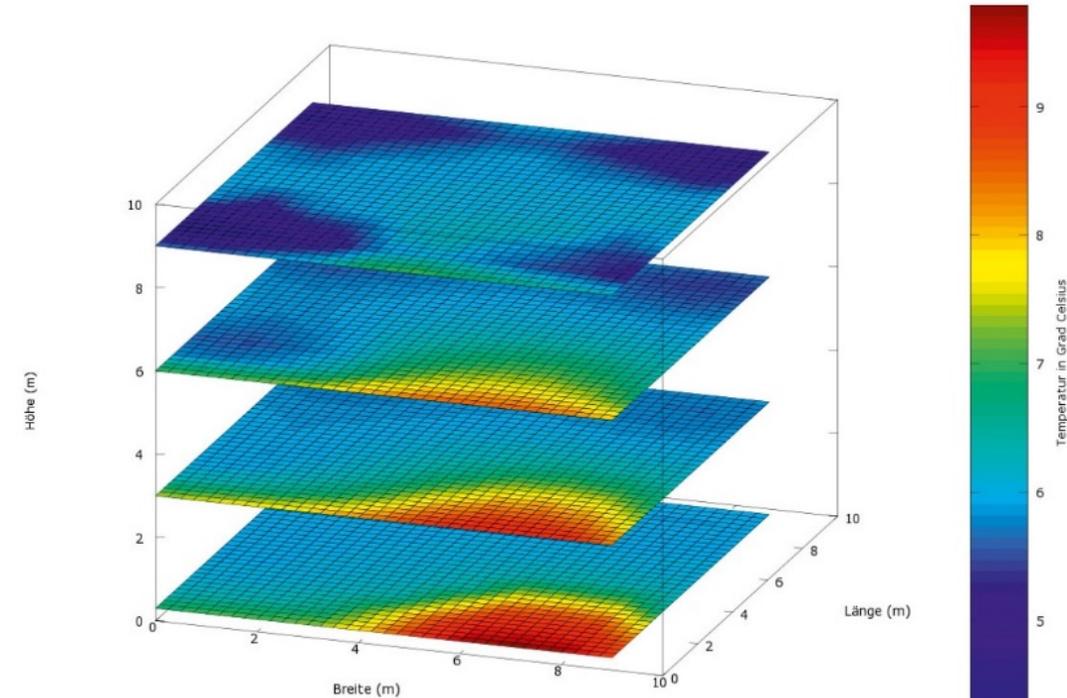

GMP-Monitoring

The systems are developed according to GMP and meet all requirements of FDA 21 CFR Part 11.

Mapping

Ensuring product quality in storage, cooling and freezing areas by determining the temperature distribution, cold and hot spots.

Products

Solutions for laboratory and pharma technology

Qualification

Preparation of documents and implementation of qualification.

Calibration

Calibration on site or in the factory and always with the latest measurement technology.

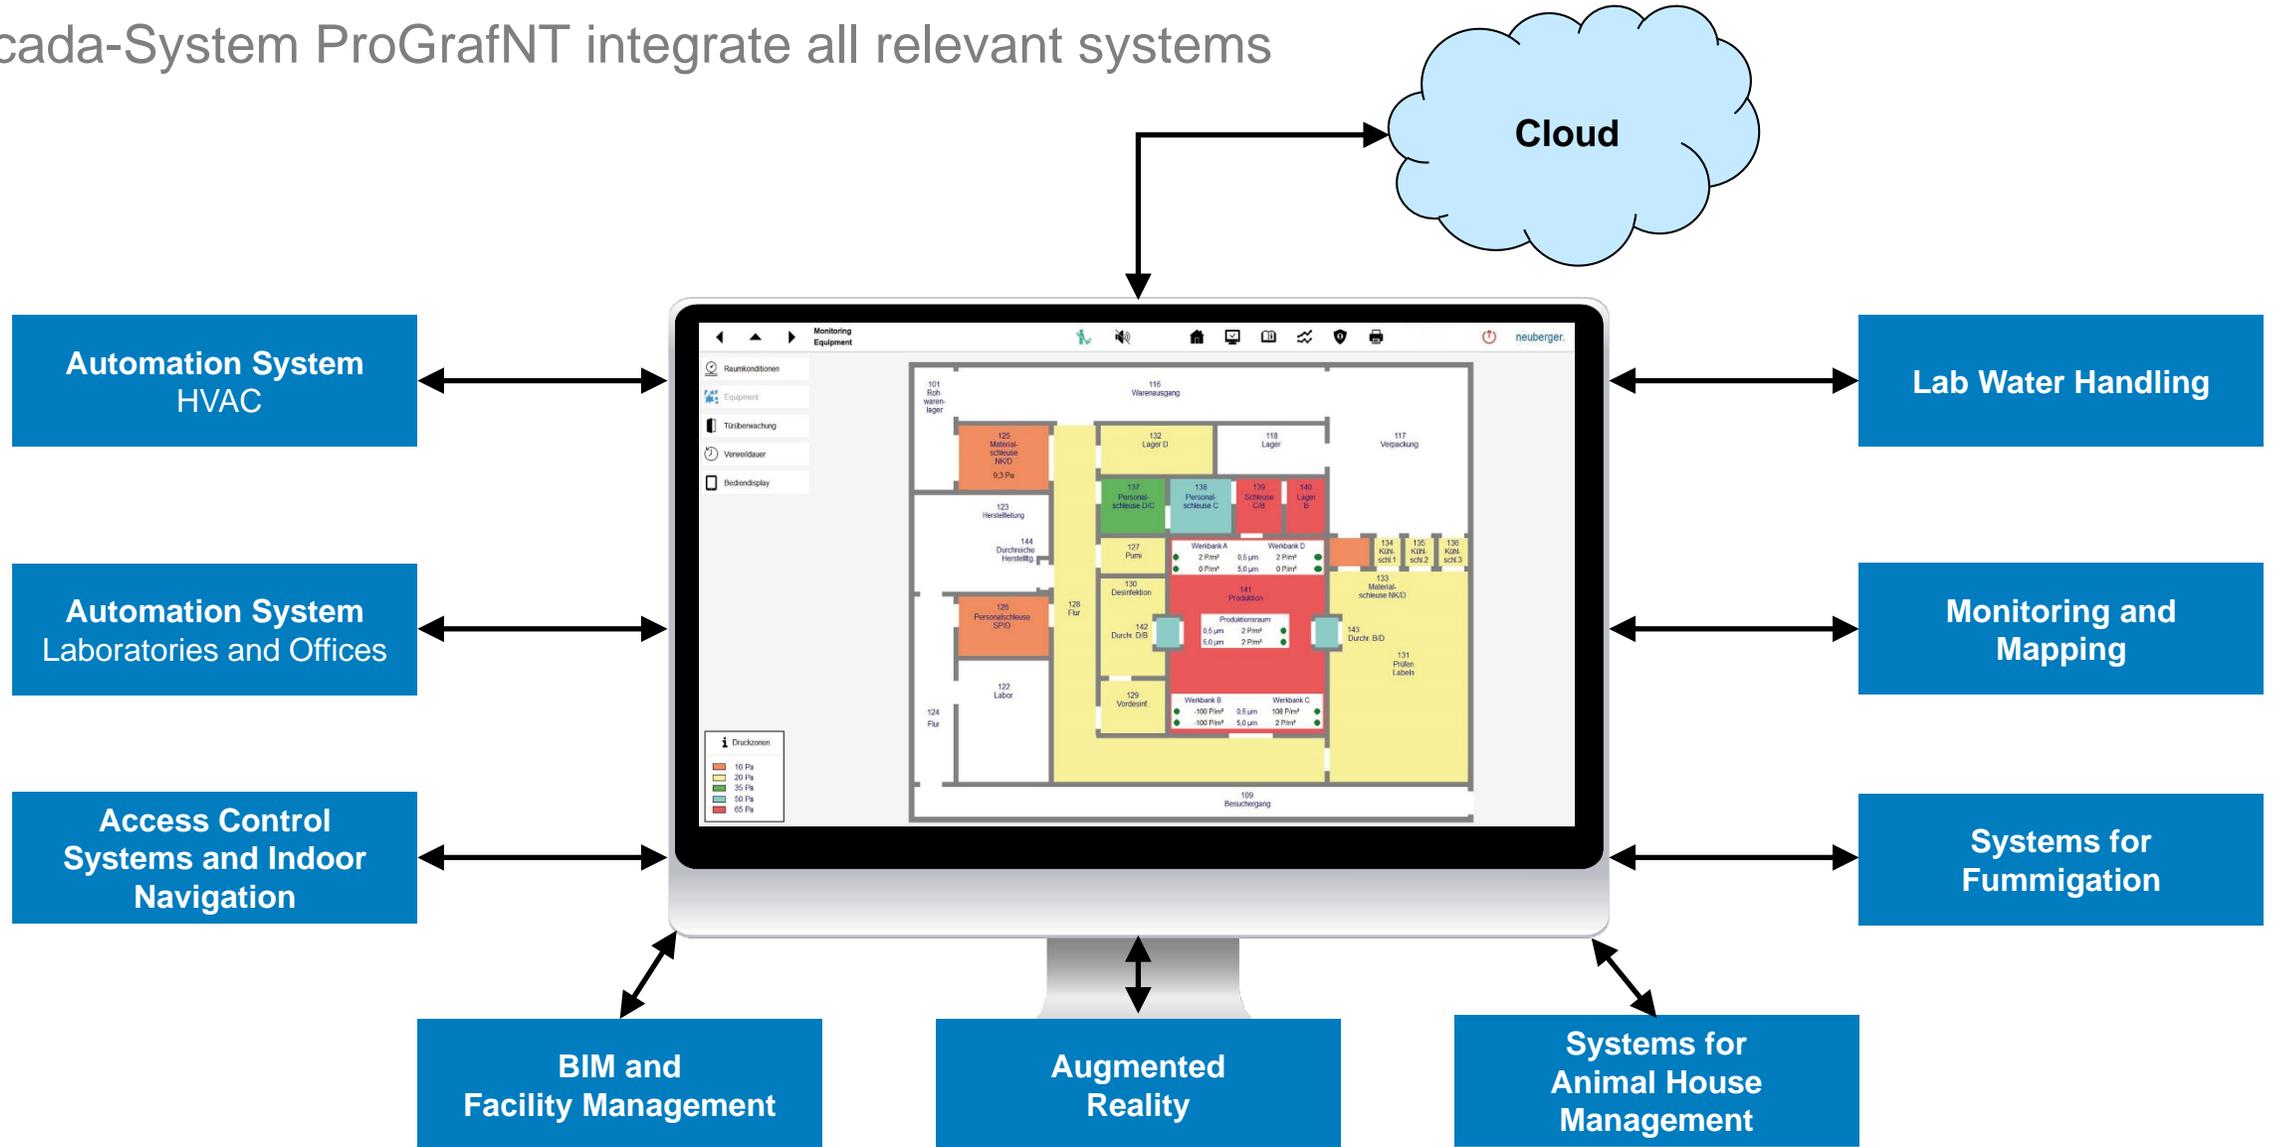

Sensors

Sensor technology for every application and for customer-specific requirements.

Products

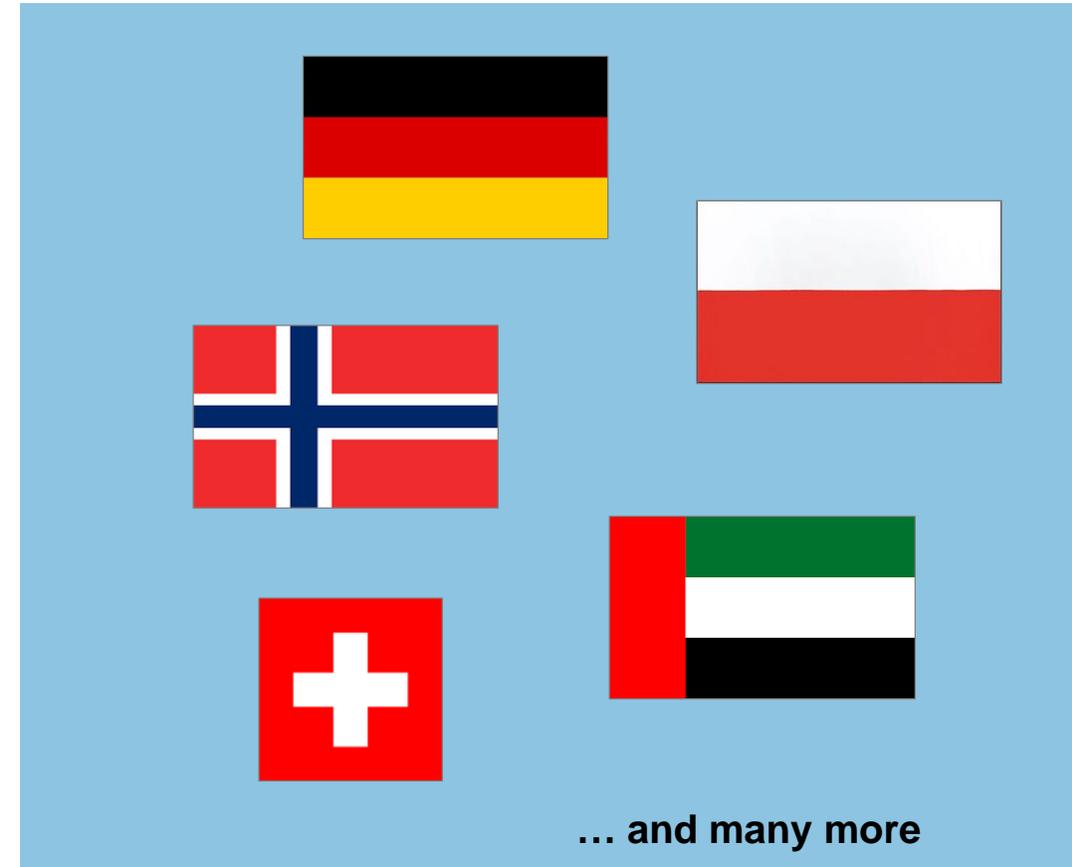

Scada-System ProGrafNT integrate all relevant systems

Customers

Laboratory and pharma technology

- Roche Diagnostics GmbH, Germany
- Novartis AG, Switzerland
- WIKA Polska Wloclawek, Poland
- Helse Bergen Haukeland, Norway
- B. Braun Melsungen AG, Germany
- Vetter Pharma International GmbH, Germany
- Sanofi Aventis Deutschland GmbH, Germany
- dkfz - Deutsches Krebsforschungszentrum, Germany
- Robert Koch-Institut, Germany
- Aeropharm GmbH, Germany
- IDT Biologika GmbH, Germany
- Central Veterinary Research Laboratory, United Arab Emirates
